The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS
—AND—
Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—Indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

The Dirge.

What is the existence of a man's life
But open war or slumbering strife?
Where sickness to his sense presents
The combats of the elements,
And never feels a perfect peace
Till death's cold hand signs his release.

It is a storm—where the hot blood
Outvies in rage the boiling flood:
And each loud passion of the mind
Is like a furious gust of wind,
Which beats the bark with many a wave
Till he casts anchor in the grave.

It is a flower—which buds and grows.
And withers, as the leaves disclose;
Whose spring and fall faint seasons keep,
Like fits of waking before sleep.
Then slips into that fatal mould
Where its first being was enroll'd.

It is a dream—whose seeming truth
Is moralized in age and youth;
Where all the comforts he can share
As wand'ring as his fancies are,
Till in a mist of dark decay
The dreamer vanish quite away.

It is a dial—which points out
The sunset as it moves about;
And shadows out in lines of night
The subtle stages of Time's flight,
Till all-obscuring earth hath laid
His body in perpetual shade.

It is a weary interlude—
Which doth short joys, long woes, include:
The world the stage, the prolonged tears;
The acts, vain hopes and varied fears;
The scene shuts up with loss of breath,
And leaves no epilogue but Death!

—*Dr. King.*

Truth Stranger than Fiction.

RESCUE OF A WHITE WOMAN AFTER BEING TWO YEARS WITH THE RED SKINS.

About four years since, a family named Weigle removed from Ohio to Kansas, and settled on a stream known as Solomon's Fork. The family consisted of John Wiegle and his wife and three children—two boys and a girl, the former aged respectively ten and twelve years, and the latter three. A homestead of eighty acres was taken up, and in two years was all under cultivation. At that time, as our readers will remember, from accounts published, the Crowfoot Indians made a raid through that portion of Kansas, leaving death and destruction in their wake. The Weigle family was attacked, and the entire family, except Mrs. Weigle, butchered. That day was the last time she was seen, until Sunday last, when General Carr made an attack upon an Indian village in the vicinity of Platte Valley Station. Two white women were seen by the soldiers in possession of the Indians, struggling as if to make their way to the ranks of General Carr's command. An order was given to charge and rescue the women, which was obeyed with a will by the brave men, but before they could gain possession of the women, a savage sunk his tomahawk into the head of one of the women, whose only name is Susana, who fell to the earth. Another red devil fired a revolver at Mrs. Weigle, but the shot fortunately struck a rib and glanced off, causing but a slight wound. Before any other murderous demonstrations could be made, a private soldier, whose name and company is at present unknown, put spurs to his horse and rushed gallantly to the very heart of the Indian band, grasped Mrs. Wiegle by the waist, lifted her on his horse and galloped away to the wagon train, where all care and attention was given the unfortunate woman. The battle soon after came to a termination. by capture of the entire Indian outfit with the exception of those who fell early in the fight.

Mrs. Weigle stated to an officer that she had been a prisoner among the Indians since the summer of 1867. For a year she had been the forced mistress of a Crowfoot chief named "Buffalo Man," who tired of her after a year and a half, disposed of her to another chief named "Tall Tree," the consideration being a couple of ponies. She states that several times after her capture she attempted suicide, but was treated with all the kindness generally bestowed by Indians, which had a tendency to cause her to accept the situation yet she could never accustom herself to polution. She had become very coarse of feature, caused by exposure. Her joy at being rescued was very great, but she seems, after all, discontented, and at times tired of life. At the time of her first capture she was tied hand and foot and forced to pander to the hellish desires of her captor.

Mrs. Weigle has relatives an Ohio, who have been notified of her capture, and will immediately remove her to her old Ohio home.

This is a strange, sad, yet true story of life upon the Western Plains. Many items concerning the hellish outrages of the red skins are suppressed for decency's sake, but we have given sufficient to convey a definite idea of her severe trial.—*Omaha Herald.*

FIGHTING UNDER WATER.—When the flying machine which will work successfully shall have been found—which, to be sure, is promised us in a month—the next desideratum will be a flying machine which will fight and be an aerial iron-clad; for man must fight in as many elements as he can subdue to his purpose. Long ago, men fought under ground as well as on it; and now, if what the Berlin Bersenzetung says is true, we are to fight under water. German papers say that Otto Vogel proposes to construct a submarine steamship, and the journal above named asserts that the Prussian Admiralty has approved of the plans submitted for inspection. The vessel, covered with strong plating, is certainly below the surface of the sea, with the exception of the deck, which is surmounted by a vaulted iron roof of immense strength. Beneath this covering heavy guns are placed, so that the whole greatly resembles a first-rate iron-clad. It is said, however, that, besides all the advantages of such men-of-war, the new ship may be entirely submerged, and in this condition is so completely under command that it can weather a storm or attack an enemy with submarine cannon or torpedoes. Mr. Vogel is now engaged in the constructing a large model, twenty-four feet in length, which will soon be finished.

THE seeming shipwrecks we meet with in the voyage of life, prove the very things which best speed our course to the haven where we would be.

The Rings that Rule Us.

The following are extracts from a 4th of July oration at Xenia, Ohio, by Brevet-Brig.-Gen. Don Piatt:

Last fall a distinguished journalist sent me to Washington, with instructions to look impartially at the transactions there, and write the truth regardless of consequence. I did my best to comply with his request. I strove to lift myself above partisan considerations and feelings, and give to print a fair statement of all that could be seen. I say it now as I wrote it then, with a sickening heart, that we have the most corrupt government in the world. It is run by rings. There is no moneyed interest in the land that is without its ring in Washington. They fill the hotels, throng the avenues, and crowd the lobbies. The old Greek with his fabled lantern would die exhausted in his search for one honest man. I would exhaust my hour and your patience were I to attempt to enumerate these interests. We have the railroad rings, the land-jobbing rings, the Indian Bureau rings, whiskey rings, the land-jobbing rings, the protection rings, that branch off in every conceivable direction. And they were intriguing, caucussing, boring, and through wine and women, baiting without cessation.

I do not wish to be understood as charging that a majority of our Representatives in Congress are dishonest men. On the contrary, I was surprised to find that living in this atmosphere, and under these influencies, there were so many pure and upright men. But I will say, without fear of successful contradiction that adding the incapables to the rouges, they made the majority. What better can you expect under our system of selection! The question is no longer, "Is he capable, is he honest, is he a friend to his country?" It is, on the contrary, "Is he duly nominated by my party, and is he sound on my peculiar principles?"

Not the least disheartening part of all this is to found in the utter indifference with which the public at large regard all this. It is no longer a shame to steal. It has ceased to be a dishonor to defraud. I saw Senators who came to Washington with scarcely money enough to pay boarding-house bills, rolling over the streets in splendid equipages, and entertaining society in palatial residences. They are now millionaries, and not only tolerated, but followed, flattered, sought and sued by men and women who would be honest were it the fashion to affect virtue; and if you turn from men who have made their fortune out of their places, it is to stare at men who bought their way in. These Senatorial chairs are put up at auction, and knocked down to the highest bidders. The longest purse brains the opponent, and the Hon. Ingot or the Hon. Greenback stalks in with just brains enough to make up, through a sale of votes, the money he has expended in securing his seat.

A WIFE LIVING WITH TWO HUSBANDS.—There is a very remarkable case of matrimonial felicity in this city, which is not generally known to the public. In the West Division lives a woman with two husbands, to each of whom she has been married in legal form. At the time the war broke out this woman was living with her first husband, by whom she had three children. Soon after the breaking out of the rebellion her husband enlisted and went off as a brave soldier boy. A year or two after his wife heard that he was killed in battle. She heard nothing from him personally, the war closed, and he failed to write or to report at his former headquarters in Chicago. His wife now considered herself a widow beyond all doubt, and in course of time she married again. But a few months ago, to her amazement, husband No. 1, whom she had mourned as dead, returned to his long deserted domicile, but, like Enoch Arden, only to find his wife the spouse of another man. But, unlike Enoch Arden, he failed to die of a broken heart. A council of war was held by the three heads of the family, and the difficulty amicably adjusted. What to some men and women similarly situated would have resulted in pistols, blood and litigation, was settled readily and satisfactorily by this amicable trio. It was mutually agreed that both husbands should continue to be liege lords of the woman, on equal terms, and she should be the wife of both husbands. Soon after the soldier husband's return home, the wife presented to him and to the world another child, the offspring of husband No. 2. But this circumstance did not seem to disturb the equilibrium of No. 1, nor the peace of the household. And there dwells that happy family, one wife, two husbands and four children, in a small cottage, as quietly and content to all appearances, as if nothing unusual had ever happened.—*Chicago Post.*

BUTTER MAKING.—One-half of the time or more will be saved in churning by following the directions here given. After the milk is strained set the pan over some boiling water, in an ordinary iron pot, on the stove, and heat the milk until the cream rises slightly. Whenever the surface begins to show wrinkles then it is done. Set it away to cool before you put it in a close place. If earthern crocks are used, set the crocks in water in a tub. If served in the above way it will make more butter, will be sweeter, and keep longer. Since I have scalded my milk we churn from two to ten minutes in a patent churn, otherwise, it took sometimes half an hour. You get your pay for the small trouble of scalding the milk when "churning," besides an extra quality and quantity.—*Exchange.*

FOLLOW THE RIGHT.—No matter who you are, what your lot, or where you live, you cannot afford to do wrong. The only way to get happiness for yourself is to do the right thing. You may not always hit the mark, but you should nevertheless aim for it; and with every trial, your skill will increase. Whether you are to be praised or blamed for it by others; whether it will seemingly make you richer or poorer, or whether no person but yourself knows of your acting, still always in all cases do the right thing. Your first lesson in this rule will sometimes seem hard ones, but they will grow easier and easier, until doing the right thing will become a habit, and doing the wrong will seem an impossibility.

Very Singular.

DISCOVERY OF THE INFERNAL REGIONS IN SOUTH AMERICA.

The New York *Tribune* correspondence from Lima, May 28th, 1869, contains the following:

In my last letter I mentioned the extraordinary phenomenon, near Locumba, which caused the death of all animals that approach the fatal spot. I am now enabled to give you some particulars. An American gentleman who passed over the locality, confirms the previous reports. On the Locumba Road, about twenty-two leauges from Tacna, there exists what is here termed a dry *arroya*, but in fact is the bed of a former river, into which, from time immemorial, no water has been known to pass. During the late earthquake, which destroyed Arica and partly Tacna, the shocks which were strongest in the direction of Locumba and the Arrieros.

A mule driver reported that one of the mountains near the *arroya* had been split open, and a small stream of fetid water was oozing out of the *arroya*. No attention was at first paid to the fact, nor the mortality among the animals that visited the neighborhood. It was only when the people began to leave Tacna and flee from the scourge of the yellow fever, which was devastating the cities, to the valley of Locumba, that they became aware of the fatal effects upon their animals, at a distance as much as eight and ten miles from the *arroyo*. "The stench," says my informant, "I can compare to nothing else than old bilge water, of the smell of which you become painfully conscious."

"Within twelve miles from its source my horse dropped down under me, and in five minutes he was dead. He vomited three or four times a thick, black substance, similar in consistency and appearance to the black vomit. I was thus compelled to walk fifteen miles to the nearest house, two-thirds of which I may call a mules' graveyard, so thickly was the old road covered with them. The cause of this singular freak of nature is unknown; but it seems that the gases which have impregnated the atmosphere produce the vomit and death of the animals that inhale it. What the gases are composed of science alone can solve." A commission has been ordered by the Government to examine into this extraordinary matter and report upon it.

TAKE MY HAND.—In the dead of night I am frequently awakened by a little hand stealing out from the crib by my side, with the pleading cry: "Please take my hand, papa!"

Instantly the little boy's hand is grasped, his fears vanish, and soothed by the consciousness of his father's presence, he falls into a deep sleep again.

We commend this lesson of simple, filial faith and trust to the anxious, sorrowing ones that are found in almost every household. Stretch forth your hand, stricken mourner, although you may be in deepest darkness and gloom, and fear and anxious suspense may cloud your pathway, and that very act will reveal the presence of a loving, compassionate Father, and give you the peace that passeth all understanding.

The darkness may not pass away at once, night may enfold you in its cold embrace, but its terrors will be dissipated, its gloom and sadness flee away, and in the simple grasp of the Father's hand, sweet peace will be given, and you will rest securely, knowing that the morning cometh.—*Congregationalist.*

ANALYZING A WOMAN.—The following will do for a story. A celebrated Parisian belle, who had acquired the habit of white-washing herself—so to speak—from the soles of her feet to the roots of her hair, with chemically prepared cosmetics, one day took a medical bath, and, on emerging from it, was horrified at finding herself as black as an Ethiopian. The transformation was complete. Not a vestage of Caucassian race was left. Her physician was sent for in alarm and haste. On his arrival he laughed immoderately and said: "Madame, you are no longer a woman but a sulphuret. It is not a question of medical treatment, but of simple chemical action. I shall analyze you. Come, I shall submit you to a bath of sulphuric acid diluted with water. The acid will have the honor of combining with you; it will take up the sulphur, the metal will produce a sulphate and we shall find as a participate a pretty woman. The good natured physician went through with his analysis, and the belle was restored to her membership with the white race. Young ladies who are ambitious of having snowy complexions should remember this and be careful what powders and cosmetics they use—if tney use any at all.

THE TRUE LIFE.—The mere lease of years is not life. To eat and drink and sleep; to be composed to darkness and the light; to pace round the mill of habit, and turn the wheel of wealth, to make reason our bookkeeper, and turn into an implement of trade—this is not life. In all this but a poor fraction of the conciousness of humanity is awakened, and the sanction still slumber which make it most worth living. Knowledge, truth, love, beauty, faith alone can give vitality to the mechanism of existence; the laugh of mirth which vibrates through the heart, the tears that freshen the dry waste within, the music that brings childhood back, the prayer that calls the future, the doubt which makes us meditate, the death which startles us with mystery, the hardships that force us to struggle, the anxiety that ends in trust, are the nourishment of rational beings.

WOMAN.—An exchange says, we can always tell what sort of a woman a man marries, by the way he treats the printer. If he gets a common wife, he forgets the printer altogether. If he gets a tolerably good wife, he will send in the notice of his marriage. If he gets a very good one, he will send the printer a nice slice of cake accompanying the notice. If he gets an extra one, he will send a nice slice of cake and a bottle of wine with the notice. And if he gets a glorious, angelic creature—all affection and goodness—he is sure to send the printer a nice lot of cake and wine and five dollars for a years subscription for the paper.

EQUALITY.—The party legitimately the predecessors of the present Radicals, always steadily concealed their real object of equalizing the inferior races by leveling down the white man. Forty years ago they disclaimed any intention to touch the institution of slavery in any manner. Twenty years ago they admitted that they wished to restrict slavery to its then local home in the Southern States. Still later, President Lincoln denied either the intention or right to abolish slavery, and now to-day, we are assured by the leaders among the Radicals that they do not mean anything like giving the right of suffrage to the inferior races. They tell us that in spite of the Civil Rights bill and the Fifteenth Amendment, both of which declared the equality of all mankind, regardless of race, color or previous condition, they only meant thoretically to declare equality and do not intend to put into actual practice. We invite any man who has the most ordinary ability to read, to examine the Civil Rights bill and see how it is possible under it to refuse to any Chinaman or negro, or other person, the right of suffrage. Then, to make assurance doubly sure, let the reader again look at the wording of the Fifteenth Amendment and see how it is possible to avoid giving the inferior race the ballot. This party with its one object and perpetual denials, is steadily marching to a consummation which will convert our Government into just such a Republic as Mexico now is, or as any country is that is governed by any of the inferior races.

OUR CANDIDATES.—Will somebody give us light as to where stands Mr. Scott, the Radical candidate for the Assembly, on certain questions that are considered important by the Democracy and by hundreds of voters in the Radical party who do not intend to be equalized down to the level of the Chinese? Will Mr. Scott deny that he is in favor of the Ffteenth Amendment. According to his explanation, published a few days ago, he is not at present in favor of the Ffteenth Amendment, but is willing to inflict it upon those of us who are alive twenty-one years hence. He is like the young lady who experienced religion and in the heat of the moment renounced her fine dress and jewels as the regalia of the devil, and then delivered them over to her youngest sister.

DESTRUCTIVE FIRE.—The town of Moore's Flat, Nevada county, was destroyed by fire Saturday morning last. Only two buildings were saved. Loss $80,000, little insurance. The fire broke out in the Chinese quarter. The "citizens without regard to previous race, condition or labor," have been the cause of greater loss by fire in this State than has ever accrued from their "frugal and industrious" addition to the laboring population of the State.

CANDIDATES' BALL.—A wide-a-wake hombre at Elk Grove, Sacramento county, advertises a "Candidates' Ball," and each candidate in the county honored by having his name published as a "manager." There are from twenty-five to thirty candidates and each one will of course buy a ticket, at the modest price of $5, "supper included.' The ball will be a success, no doubt.

LET THEM ANSWER.—The *Bee* says that the Republican candidates for the Legislature in Sacramento county are in favor of the Fifteenth Amendment. How is it with Messrs. Reed and Scott? Yes or no? No quibbling, no attempts to divide the question. Are they or are they not in favor of the Amendment?

AN END.—The tax on Incomes will cease after they ear 1870, according to law. However we would not advise our friends, lucky enough to have incomes, to get jubilant too soon, as Congress will most likely re-enact the law for the collection of Income Tax at its next session.

WHEAT MARKET—SAN FRANCISCO, Aug. 5th.—Price low grades, from $1 25@$1 55. Good shipping, $1 70@$1 72½. Ordinary milling, $1 55. Market firm from good to choice, $1 70@$1 75.

ENDED.—The labor strike at White Pine is ended. The principal mills have resumed work at employers' prices, four dollars per day.

The Labor Question.

The question paramount to all others at this time, in America, is the all-absorbing one—the rights and interests of laboring men. In the old countries of the world—in Europe, in Asia, in all countries but ours—labor is neither honorable nor profitable to the man or woman who performs the necessary work in carrying on any or all industrial pursuits. In this country, in the past, the men who toiled held their heads erect, conscious of the honorable estimation in which industrious effort was held, and with a prospect, from ample compensation, to rise above the necessity of daily toil for daily subsistance. Capital, heretofore, has been quite generally distributed amongst the masses; there were but very few rich men who counted their possessions by millions, and few corporations of much magnitude or consequence in a pecuniary sense. There was no oppression of the poor man, nor attempts to oppress, because there were no great concentrated moneyed interests in the land. But a change has taken place during the progress of recent events which it is unnecessary to discuss in this article. Great fortunes have been accumulated by individuals, and great corporations fostered by the Government have grown to an overshadowing and dangerous importance and power. The poor man has received little or no advance in compensation for his work, while the expense of the maintainance of his family has more than doubled. Capitalists, grown rich on the results of cheap labor, and greedy for still further gain, fearing further to oppress directly the free white laborer, are endeavoring to supplant him in trade or avocation, by the importation of a foreign, barbarous and heathen race—slaves in fact if not in name—men who are bought and sold, not singly as during the slave time in the South, but by hundreds and thousands sold wholesale to rich companies bidding by the fraction of a dollar more than another wishing to purchase. Not satisfied with flooding the land with these hirelings, and fearing that the laboring American citizen would, by proper and needful legislation through his representatives, enact laws to prevent this wholesale barter in human flesh, they, aided by the party in power, are striving by treaty and by Constitutional Amendments to increase the abominable trafic and to still further degrade the free white laborer by giving the rights of citizenship and suffrage to these ignorant and irresponsible vassals of despotism at home and slaves of capital here. Shall they succeed? The result of the next election may decide. The adoption of the Fifteenth Constitutional Amendment empowers Congress to amend the naturalization laws so as to admit to the right of suffrage all persons, "without regard to race, color, or previous condition of servitude," and that Congress will do so we judge from the words and acts of its leading men of the dominant party. We appeal to all free white men who earn the support of themselves and families by honest toil, without regard to former political affiliations—shall this thing be consumated?

"RIDINGHOOD."—Among the finest of literary characters whom we may claim as Californians, stands "Ridinghood," the lady correspondent of the Sacramento *Union*. Her easy and elegant utterances fall upon the ear like the delicious songs of a beautiful woman heard in the intervals of city noise, or like the song of the nightingale in the interludes of battle; or, to speak more strictly, like the sweet voice of a real woman in contrast with the fierceness of her "strong-minded" sisters. Reading a speech delivered by Susan Anthony or Anna Dickinson, or any other of the strong-minded sisterhood, and then turning to the sparkling paragraphs of "Ridinghood," is like turning from the coarsest food to a well-ordered banquet of the most delicious viands—in fact it is nothing else but its actual self—the difference between a most loveable woman and one who is utterly unfeminine and incapable of winning the love of the opposite sex. We are very proud of this fair Californian.

ARMY OF IDLERS.—The *Bee*, (Radical) says:

"The railroads are discharging numerous laborers who, with the manufacturing and house building mechanics that cannot find employment, swell the idlers into an unusual army. The State generally does not feel or see the result, but San Francisco and Sacramento, where they congregate most begin to be aware of the fact."

The State will see it, as the *Bee* will find out, about the 1st of September. The railroad has been in operation two months and already the cities are full of men who cannot obtain employment. Still the *Bee* and kindred papers are in favor of a still further influx of Chinamen to "develop the great industrial resources of the State." Are men of our own race to be driven to want and desperation that capitalists may, by the employment of cheap pagan Asiatics, add to their wealth? The Democratic party are right on the great labor question—which is the great question of the day—and will surely succeed, as the people are with it.

MISS SUSAN B. ANTHONY, who sleeps alone from necessity, devotes her paper to proving that it is unhealthy for two people to sleep together. It is the old fable over again, says the *Day-Book*, of the sly old fox who had no tail persuading all the other foxes that tails were out of fashion.

PERKINS, the Radical candidate for Senator in Butte county, declares himself opposed to the Fifteenth Amendment. The Radicals in that county are very much exercised, as they dare not ask him to withdraw, nor nominate a candidate against him.

ADDRESS.—Hon. Henry Edgerton will deliver the anuual address before the State Agricultural Society this year.

Summary of State News.

THERE are fifteen lawyers in San Diego county and only five physicians.

SACRAMENTO is about to pass an ordinance calculated to suppress the so called "Jerker Saloons."

SEVEN vessels have cleared from San Francisco for England with wheat since the new crops came in.

A GENTLEMAN in Los Angeles is going into an extensive experiment in coffee raising. He has already received the seed.

NEARLY all the children in Silver City are down with the whooping cough, and scarlet fever and diptheria are also very prevalent.

A. J. KING, the talented editor of the Los Angeles News, has been nominated by the Democracy of his county for State Senator.

SETTLEMENTS on the Tulare river are said to be progressing more rapidly than almost any other portion of the State.

SARAH MCCARTHY has sued the city of San Francisco, to recover $10,000 damages, for injuries received July 5th, by the public fireworks.

THE down train on the Vallejo Railroad ran into a flock of sheep two or three miles the other side of Davisville, and killed twenty or thirty of them.

HUCKLEBERRIES have made their appearance in Yreka, and sold at a dollar a gallon. They are brought from the valley at the base of Mount Shasta.

THE number of orders issued at the Post-office at San Francisco, since the money order system went into effect is 40,109, amounting to $1,431,000.

EDMOND B. HALELSON, a young man residing with his mother, near Waterloo, San Joaquin county, accidentally shot and killed himself on the morning of July 18th.

DURING last week sixty-three deaths were reported at the San Francisco Health office, of which four were from scarlet fever, thirty-two were under five years of age.

GILROY, of Gilroy, in Santa Clara county, died recently at his home. He has lived there thirty years, but came to the country in 1814. He died at the age of 78.

ON the 20th instant, while Dave Amidon was at work on his farm near Jacinto, Colusa county, he suddenly dropped dead, from an attack of the heart disease, it is supposed.

ON August 7th—to-day—there will be a total eclipse of the sun, visible either as a total or partial eclipse throughout all North America and Eastern Asia.

THE Valparaiso Mill, near Tuttletown, Toulumne county, was destroyed by fire on Monday night last. A man named Teidman, who was sleeping in the mill, was burned to death.

J. N. LONG, in the District Court for Tehama county, was last week sentenced by Judge Sexton to be hanged by the neck until he shall be dead, on Friday, the 3d day of September.

THE Vulcan Foundry, San Francisco, has sent a ten-stamp quartz-crushing mill to Japan, to fill an order received from that country. The quartz gold mines of Japan are said to be rich.

SIERRA VALLEY was visited by a severe hail storm some days ago. The hail stones were so large and fell with such force that they did much damage to the wheat and barley crops

THE Placerville Democrat of July 24th, says: For the first time, we believe, in the history of our country, the jail doors were open all day on Wednesday last, there being no prisoners that it was necessary to keep confined.

THE excess in the receipts of wheat, barley and oats, in San Francisco, during the first 18 days of July, over that for the same period, last year, was within a fraction of 60,000 sacks—an increase of nearly 50 per cent.

BLINN & COMPANY, San Francisco, closed the door of their mill against eight-hour men Saturday night; about eighty workmen were paid off and notified they could work on Monday at ten hours a day, or not at all.

THE Monterey *Democrat* reports whales in large numbers in the bay of Monterey. Seven were bagged in one week by the whalers in that place. Mackerel have also made their appearance, after an absence of many years.

THE *J. H. Roscoe* arrived at San Francisco a few days since, bringing 45,000 codfish. She brings reports from ten others of the codfishing fleet in the Alaska waters, whose aggregate catch, up to July 5th was 214,000 fish.

THE State Agricultural Society has issued its official programe for the State Fair, which is to commence September 6th, and continue until the 11th, inclusive. Premiums to the amount of $20,000 and seven gold medals are offered for excellence in almost every variety of useful industry, in which human hands and human brains can engage.

A fire broke out in the town of Moore's Flat, Nevada county, on Saturday morning, which resulted in the destruction of almost the entire town; but two buildings in the town proper were saved, one a dwelling, the other the Odd Fellow's Hall. The loss is estimated at over $100,000. The fire originated in some Chinese quarters.

ENCOURAGING.—The New York *Times* says that the business and commmercial reports from the South are of the most encouraging character. A gentleman who has traveled over nearly all the Southern States, says that the people generally have not only recovered from the effects of the late war and the general depression of a year ago, caused by political complications, but that they are now on a fair road to riches, and that that entire section of country will shortly be as flourishing as it was before the war.

ADMIRAL DAHLGREN, it is announced, has been placed in command of the Washington Navy Yard, with posivive orders to "clear out" every man who is opposed to working on terms of social and general equality with negro laborers, or who is not a thorough Radical in all respects. The same policy is to be enforced in all navy yards and other public works.

FOR JUDGE.—The Democracy of San Francisco have nominated R. R. Provines for Judge of the Twelfth District, and R. F. Morrison, formerly District Attorney of Sacramento, for the Fourth District.

MOSQUITO BITES.—The fluid extract of lobelia, when applied to mosquito bites, entirely and almost instantly puts an end to their itching. It can be obtained of any druggist.

FRANK MCCOPPIN has been nominated for re-election to the office of Mayor of San Francisco.

EASTERN ELECTIONS.—Kentucky has elected the Democratic candidate for State Treasurer (the only State officer elected) by 40,000 majority. The Legislature will be largely Democratic. The returns received indicate the election of Senter (Conservative) in Tennessee for Governor and a liberal Legislature. Andrew Johnson and Bailie Peyton will be candidates to the U. S. Senate from Tennessee to succeed Fowler. It is rumored in Washington that Senator Cole has gone on a mission for the purchase of the Island of San Domingo. A meeting of the officers of the Union and Confederate armies who participated in the battle of Gettysburg, are to meet on the field to locate correctly the position of the different Divisions and Brigades as at the battle. A Democrat has been elected to Congress from the Third District of Alabama. Cavanaugh, Democrat, is elected Delegate to Congress from Montana. Vermont is to vote upon an amendment to the State Constitution allowing women to vote.

WALTHAM WATCHES!

Let every one who wants a Watch, read this carefully. Especially if in some remote out-of-the-way place!

Now that the railroad is open, we propose to give the residents of California the opportunity of getting single Waltham Watches at the

LOWEST NEW YORK WHOLESALE PRICES!

We sell more Waltham Watches than any other establishment in the country, either wholesale or retail; we send great numbers to every section of the country by Mail and Express, carefully packed, and in perfect running order. Our plan is this: You want a Watch, and see our advertisement; now, we want you to first to write us for our Descriptive and Illustrated Price List; we will send it, post-paid, by return mail. It explains all the different kinds, tells the weight and quality of the cases, with prices of each; you then make a selection of the kind you prefer, and send us your order. We then send you the watch by Express, with the bill to collect on delivery. We give instructions to the Express Company to allow you to open the package and examine the watch; if it suits, you can pay and take it; if not, you are under no obligation to receive it; and if it is taken, and afterwards does not prove satisfactory, we will exchange it, or

Refund the Money.

As an indication of the Prices, we will quote one watch from our list. The P. S. BARTLETT, Lever Movement, with Extra Jewels, Chronometer Balance, Patent Pinion, Patent Dust Cap, and all the other late improvements, in a Solid Coin Silver Case, for

$28 in Greenbacks, or about $20 in Coin.

All other kinds, both gold and silver, in the same proportion. Do not order a watch till you have sent for a Price List, as it contains a great deal of information regarding these watches that will enable you to make an intelligent selection. Don't forget, when you write, to state that you saw this advertisement in the YOLO COUNTY DEMOCRAT, and you need not put in stamps for return postage. Address in full,

TOWN AND COUNTY MATTERS.

FROM BUCKYEE.—A correspondent writing from Buckeye, under date of August 3d, says: "Sunday evening news came to Justice Harriman, that a dead body had been found in the foot-hills some four miles West of this place. It proved to be the body of J. Crane. He had been at work chopping wood for Benj. Ely, and had not been seen or heard of for six weeks when, on chance, some sportsmen came across his body, with the head resting on a slight elevation while in the right arm was an empty demijohn. It appears that the unfortunate man had divested himself of his clothing, as his body was in a state of nuidity and his clothes scattered around. No one of course can tell the exact cause of his death but that of the jury's verdict was, 'death caused by strong drink and exposure.' Crane was about fifty years old and had been dead from four to six weeks. For the last two weeks the female population of this neighborhood have been in constant fear of a crazy man who is prowling around and creating great consternation among that sex by commanding them to dance, searching their bureaus for his hat which he declare they have hid, and making many other simple requests which frightens the poor creatures nearly ont of their wits."

SENATORIAL CONVENTION.—The Joint Senatorial Convention of the Democratic party of the counties of Solano and Yolo, met at Davisville on Monday last. Full delegations were present, and at one o'clock the Convention was organized by the election of P. Meagher, of Solano, as Chairman and W. A. Henry, of Yolo, Secretary. After the usual preliminaries incident to organization, Dr. Dobbins placed the name of William Minis in nomination for Senator. A Delegate nominated Dr. Curtis. The Doctor in a neat little speech withdrew his name and then on motion of Wm. Thompson, of Vallejo, Mr. Minis was nominated by acclamation. Mr. Minis in response to calls made a few remarks characteristic of the man, terse and pointed, showing that he meant business. He was followed by J. S. Haile, of Solano, Supervisor Roberts, Dr. Curtis and J. C. Ball. The Convention was enthusiastic, indicative of the spirit which pervades the party in the two counties. The Republicans will find by the first of September that they have a slender Reed to lean upon in the Senatorial contest.

CHEAP.—It only costs $1,200 for a Fruit car from Sacramento to Chicago, of which the Central Pacific Company receives $400 and the Union Pacific and Northwestern $800. Much care is necessary in the shipping of fruit; for instance, pears are wrapped separately in paper before packing. All that is needed to make the shipping of fruit pay is reasonable charges for freight. Cars have been arranged expressly for the shipping of fruits, with new, and, it is believed, sufficient ventilation. The telegraph reports to the Sacramento Fruit Company the arrival of first invoices at Chicago in good order, excepting plums, which require extra care. No fears are entertained regarding the shipment of grapes.

LIVELY BUT QUIET.—Sunday last was a lively day. Railroad men, threshers and harvesters having a day of rest and making the high range of the mercury in the thermometer an excuse, indulged in whiskey to the delight of saloon keepers the gratification of their bodies and toil worn physical combinations. A few "discussions" took place without annoyance to the community, and without serious results to the participants, excepting in one instance that a party received a severe cut under the left eye, from a blow inflicted with some heavy missile. The Police were actively engaged in suppressing lager, assisted by a large number of our best citizens.

BADLY INJURED.—One James Leonard, who has been working on a farm in Solano county, while riding a horse with harness, into Davisville, on Monday last, was thrown, the horse falling upon him. One of the wooden hames entered the lower portion of the abdomen inflicting a terrible wound. He was taken in charge by Dr. Bryant, and all necessary attention shown him. Being left for a few moments in a room alone, in a fit of delirium he escaped and started for the country. He was followed, brought back and sent to the hospital.

JAMES T. LILLARD, proprietor of the Yolo House, Davisville, extended an invitation to the delegates to the Senatorial Convention and all their friends, of all parties, to dinner on Monday. About fifty set down to the table. The dinner was ample as the big heart of the proprietor of the house, and the wine as sparkling and liberally disposed of as the well known generosity and liberality of James T. Lillard. Any of the boys of Davisville engaged in the bottle business would do well to call at the Yolo House.

RUNAWAY.—A team without a driver came rushing friously up First street, from the north, on Tuesday. At the corner of Main st. they came in collision with a saddle horse, ruminating at a post, while his owner was assuaging his thirst or doing something else. The tongue of the wagon caught in the saddle and then a spike team went gaily down Main street to the Woodland House where it was stopped. Nobody hurt nor any damage resulting.

AN U. P. ON THE RAMPAGE.—One of the above described notables was charging around town one day this week in search of something upon which to exercise his well developed muscle. He found his objective point in the shape of a full grown harvest hand, and the mournful drapery about his optics will remind him whenever he looks into a mirror or stoops over a spring of clear water to drink, (if he ever does either) of the disastrous result of his raid in search of "a man that could stand before him."

ACCIDENT.—An accident occurred on the railroad crossing of Main street, on Tuesday, fortunately resulting only in the demolition of a wagon. It is said that great carelessness is manifested by the railroad employees in switching and making up trains at that point. It is the main thoroughfare of the town and cars should not be left standing on the street nor should they recklessly cross and re-cross without warning.

WAREHOUSE.—The large brick warehouse of F. S. Freeman, at the Depot, is rapidly approaching completion. Many other improvements are necessary in that part of the town for convenience to the traveling public, which will probably come along some time if not in due time. It is very dusty out there at this time—hard on people generally, but healthy for bath-house keepers and boot-blacks.

FIVE HUNDRED AND EIGHTY-SIX is the number of names enrolled upon the corrected poll list of this precinct, which will be increased to six hundred and fifty or more before the first day of September. A large increase over last year, and a remarkable gain over the number of 1867.

CROPS IN SUTTER.—The *Banner* says "the grain crop in this county is as large as usual and farmers are in good spirits. Hundreds of tons are shipped daily to the Marysville market." In a few weeks the grain will be shipped this way to Vallejo.

THE FRONT of Fleishman & Kaufman's store, on Main street, has assumed a bran new appearance, under the manipulations of Charley Plunnett's paint brush.

SUPERVISORS.—The Board of Supervisors, at their August session, transacted the following: Road through Capay Valley established in accordance with prayer of petitioners; also from Blowers' corner to Low's; also from Blowers' to Ogburn's. G. W. Park and H. Gaddis were appointed viewers of road leading past Dunnigan's. Road through Gordon Valley petitioned for by Dutton and others, established. Consideration of petition for road through lands of Stephens, in Cottonwood, postponed until next session of the Board. G. W. Andrews, J. W. Tilly and Jas. Sibley appointed viewers of road from Nelson's bridge to Knight's Landing. Bid of J. W. Tilly for construction of a bridge at Lone Tree for $533 accepted. W. A. Henry and D. C. Hubbard appointed to fill vacancies in Board of Registration in Woodland precinct. Consideration of petition for incorporation of the town of Woodland postponed to September meeting of the Board. Accounts allowed: E. Bynum, $135 51; J. I. Underhill, for map of town of Woodland, $185 12; same for surveying, $44 39; L. B. Ruggles, $25 20; R. R. Darby $120; Hoyt & Blucher, $7; S. M. Harriman, $6; R. Hines, $12 50; Mrs. Dollarhide, $20; H. Cooper, $20; W. C. Wright, $32 50; Dr. Strong, $393; J. W. Tilly, $50 50; E. E. Perkins, $45 20; C. E. Kiefer, $117 50; same $55; J. B. Pearson, $100; A. Powell, $33 20; J. Carolan, $5 50; Friend & Terry, $41 50; H. S. Crocker & Co., $24. Board adjourned to first Monday in September.

DOUBLE EVENT.—On Thursday, an individual so much disguised that he did not know himself blundered into the wash room of the Planter's House; coming before the looking-glass he saw a strange face making mouths and insulting grimaces at him. He sent his right mauley after the left ogle of the insulter—demolishing the glass and annihilating the man in it. The stalwart landlord of the Planter's came along about that time and asked pay for the glass, which was refused by the victor in the above named renconter. The landlord dealt him a terrific right-hander (in which there was an oak stick,) sending him to pasture where he remained until the broken glass was paid for.

CATHOLIC CHURCH.—Ground has been broken for the erection of a new Catholic Church. We have inspected the plan and drawing of the architect from which we learn that the building is to be of the Gothic style, dimension 50 by 75 feet; height to top of spire 103 feet; to top of cross 113 feet. The design is very beautiful and chaste, and the church will be a worthy monument to the liberality of the Church and the good taste and judgment of the architect, Gustavus Cox. The location is at the South-east corner of Gidding's vineyard, in the Western part of the town. The structure will be of brick and cost $8,000.

GRAIN YIELD.—The product, per acre, will fall short this year of two or three years producing in this county, but the aggregate amount will exceed that of any year in the past. Wheat is coming in freely—farmers preferring to sell immediately for remunerative prices rather than incur the expense and trouble of storing with a chance of hereafter selling at lower rates. We hear of no transactions in barley, of any magnitude. The shipment of wheat by railroad, from this point, exceeds 100 tons daily, and perhaps an equal amount from Merritt's and Davisville.

ROBBED.—A young gentleman, agent for an Insurance Company, went to bed at the Hunter House on Wednesday night the possessor of a pair of high-heeled boots and several dollars in current coin. He awoke on Thursday morning bootless and impecunious—some enterprising night-bird or early bird having entered his room while he slept and appropriated the aforementioned portable property.

DEMOCRATIC MEETING.—A large and spirited meeting of the Democracy of Davisville took place last Monday night at the Club rooms at that place. Senator Minis, J. S. Haile, Esq., of Solano, J. C. Ball, Ed. Roberts and other gentlemen addressed the crowd in attendance. It was, we are informed, the first of a weekly series of meetings to be held at the same place until after the Radical funeral, September 1st.

GRAPES.—We are again under obligations to Milt. Dale for a very refreshing remembrance of the DEMOCRAT office. Three varieties of delicious grapes—the "Rose of Peru," the "Fisher Zagos," and "Early Sweetwater" were left with us on Thursday. They were large in size, beautiful to the eye and appreciated.

A NEAT THING—The advertisement of Bissell & Frost, agents for the Union Insurance Company. It is a set of tablets of 20 pages, small pocket size, containing the cards of the Company on each of the outside leaves.

ONE of Purrington's Grape Crushers and Steam Separators, also twenty-five new wine casks of the capacity of 120 gallons each, passed through town this week, destined for the vineyard of John Gillig, in Capay Valley.

FREIGHT.—The railroad is employed to the full extent of its capacity with down freights. The up trains also carry a large amount of merchandise for Woodland and neighborhing towns for which this is the distributing point.

THE NEW BRICK BLOCK on Main street, west of the old Post Office, is nearly completed and ready for tenants. It has a very pretty front and is an ornament as well as an improvement to that part of the town.

A DIFFERENCE.—The thermometer last Sunday, at five o'clock P. M., stood at ninety-two; at five A. M. Monday morning at sixty. The change was undoubtedly more condusive to comfort than health.

THE BOARD OF SUPERVISORS will meet on Monday, 9th instant, for the purpose of equalizing taxes for the present year. Observe notice of County Clerk in another column.

LOOK out for the eclipse of the sun to-day. By looking through a glass (a smoked glass we mean) you may see it.

SPECIAL NOTICES.

DYSPEPSIA IN THE PACIFIC STATES.—Nowhere in the United States has dyspepsia heretofore been more general, or marked with more distressing symptoms, than in California. Luxury, high living and dissipation in the cities; hardship, privation, irregular habits and the effects of maleria in the mining regions, have combined to render Chronic Indigestion one of the most terrible scourges of the Pacific States. It is a source of satisfaction, therefore, to be able to report the gradual and steady decline of the disease and its distressing concomitants on this side of the Continent. As this happy change began to be perceptible soon after Hostetter's Stomach Bitters had attained the rank of a standard remedy in this region, and as it has become more and more apparent, in proportion to the increased sales of the great vegetable specific, reason suggests that the bane has been ameliorated and checked by the operations of the genial elexir advertised as an antidote. Unprejudiced physicians admit this to be the fact, and abandoning all the ordinary stimulants, as well as the astringent tinctures and mineral excitants of the pharmacopœia, are now prescribing the Bitters as a cure for every form of indigestion. The preparation possesses three great advantages over every other so-called stomachic. It is not merely a tonic, but combines the properties of an antibilious medicine, a gentle laxative, and a blood-depurent, with those of a wholesome stimulant. It neither depletes nor excites; but strengthens, soothes, purifies and restores. No medicine ever introduced into the Pacific region has so entirely gained the confidence of every class of society, or approached in the extent of its sales HOSTETTER'S STOMACH BITTERS. au3-1m

ASIATIC CHOLERA.—THE STRONGEST PROOF OF INTRINSIC MERIT.—DEAR SIR.—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families by whom otherwise they would be very indifferently received. Believe me, gratefully and faithfully yours, J. M. JOHNSON,

"TO BE WEAK, IS TO BE MISERABLE."—No matter by what cause the physical energies may have been impaired—whether the frame has been debilitated by over-exertion, or anxiety, or excess—DRAKE'S PLANTATION BITTERS will restore the staminal vigor of the system when all the prescriptions of the pharmacopœia have failed. This is a great medical fact, resting upon volumes of public testimony, and it cannot be controverted. Remember that decay is progressive—that chronic debility, unless checked by proper treatment, increases from day to day, and inevitably shortens life. Change the condition of the vital organization with this powerful vegetable alterative—it imparts motive power to the inert animal machinery; bracing up the nerves, the body servants of the brain, and endowing the stomach with the healthful activity requisite to convert the daily food into a life-sustaining element. "To be weak is to be miserable," says Milton. The blind poet was right.

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose. There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

THE LATEST DISCOVERY

IN

MEDICATION!

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the farm of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supercede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenges will be found infinitely moee effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-billious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill. jy24-1y

SACRAMENTO CITY

EXTENTION HOMESTEAD ASSOCIATION.

SHARES.....$250 EACH,

Payable in seventeen Monthly Installment.

Lots Represented by Shares 50 by 160 Feet.

Lands Immediately Adjoining the City Limits.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled inducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistant with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For Inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

JAMAICA GINGER!

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It is the hour when from the boughs
I kissed my Molly Ann,
So run Elijah, and hurry up Pomp;
Yes, or any other man.

"O, what are the wild waves saying?"
I cried the long night through;
And a voice replied far up the height,
"A little more cider, too."

The harp, at nature's advent strung,
Is coming through the rye,
Then kiss me quick and go, my honey,
Said the spider to the fly.

My Willie's on the dark blue sea,
With five hundred thousand more;
And my days are gliding swiftly by
To the old Kentucky shore.

A CLERGYMAN at Cambridge preached a sermon which one of the auditors commended: "Yes," said the gentleman to whom it was mentioned, it was a good sermon but he stole it." This was repeated to the preacher, who resented it, and called on the gentleman to retract. "I will," replied the aggressor. "I said you had stole the sermon. I find I was wrong, for on referring to the book whence I thought it was taken, I found it there."

WHEN the "pledge" was being circulated at a temperance meeting, a decidediy inebriated individual presented himself, and offered his signature. The chairman remarked, "This is a very important step, my friend, and I trust you realize the responsibility you are assuming." "O, I can stand the (hic) 'sponsibility," was the response; "I've done it lots of times before."

HIS CHOICE.—The boy who was asked to what trade he would wish to be brought up, replied, "I will be a trustee, because ever since father has been a trustee we have had pudding for dinner," was a wise child in his generation. The greatest successes now-a-days are those connected with the dealing with other people's money.

A CHICAGO reporter, who attended a spring opening of a fashionable millinery, says of it: "A cabbage leaf trimmed with three red peppers and a dried cherry sells for $35. It is called a jockey; has one great advantage—can be eaten as a salad when the season changes. One composed of three sighs and a bit of pink-colored fog was considered cheap at $55.

AN advertisement seriously announces a new song, with the modest request, "Oh give me back but yesterday!" A companion to the above, "Oh could you spare tomorrow," is in preparation—to be afterward followed by the sequel lyric of "You havn't got such a thing as a next week about you, have you."

TERRIBLE.—A Scotch lady, ninety-six years of age, who fell down stairs, on being told by her medical advisers that her arm was only bruised, not broken, said, "O, I am so glad of that, for what a terrible thing it would have been for me to have broken my arm and become a cripple for life.

DAN MARBLE tells a story about a Yankee tailor dunning a man for the amount of his bill. The man said he "was sorry, very sorry, indeed, that he could not pay it." "Well," said the tailor, "I took you for a man that would be sorry, but if you are sorrier than I am, I'll quit."

PAUL DE CASSAGNAC, a Paris editor, has been called a liar five hundred times, has been spit on in the street seven times, has had his nose pulled four times and has been four times horsewhipped.

AN exchange says: "Grant has fooled the Committee." We have not patience to read far enough to find out what committee—but any Committee which is fool enough to trust Grant, we hope it is fooled to death.

FATHER TAYLOR lately expressed this opinion of a distinguished fellow countryman: "Ralph Waldo Emerson is as sweet a soul as God ever made, but he knows no more of theology than Balaam's ass did of Hebrew grammar.

A WESTERN paper thinks that Gen. Grant would have a more stable cabinet if he had put "Dexter" in. The joke betrays stability as well as dexterity; but it also indicates the author to be horse-tyle to the President.

THAT chap who was "lonely since his mother died," is all right now. His father married the "head" of a large family of girls, and they keep house for him and give a party nearly every night.

A NEBRASKA editor says, "hell is treeless;" and taking that treeless assertion for a text, he warmly exhorts his readers to plant trees, in order to make a difference between Nebraska and hell.

A MAN had a sign up—"cheap ladies' shoes for sale here." He found that not a woman entered his shop. No wonder; the ladies dont' like to be called cheap—they want to be called dear.

A CLERGYMAN consolling a widow on the death of her husband, remarked that she could not find his equal, "I don't know about that," replied the sobbing fair one, "but I'll try."

IN many parts of Ireland and Scotland, the natives prefer their ragged, dirty, one-pound notes to the brightest sovereign, and the more soiled and worn the paper, the better it is liked.

A CORRESPONDENT suggests that the inebriated person who proposed to escort his girl to see "Crossington Washing the Delaware," should do so on "Birthington's Washday."

TRUTH being founded on a rock, you may boldly dig to see its foundation; but falsehood being built on the sand, if you proceed to examine its foundations, you cause its fall.

"Them soldiers must be an awful dishonest set," said an old lady, "for not a night seems to pass that some sentry is not relieved of his watch."

A HOME missionary was asked the cause of his poverty. "Principally," said he, with a twinkle in his eye, "because I have preached so long *without notes*.

Pacific Protective Association of California.

Incorporated.....Oct. 1868.

OBJECT.

The object of this Association is to secure a cash payment, within sixty days after the death of a subscriber, to his or her heirs or assigns, of as many dollars as there are individuals of the class to which said deceased subscriber belonged.

MEMBERSHIP.

The subscription fees are TEN DOLLARS at joining, and ONE DOLLAR on the death of each subscriber. The One Dollar from each subscriber is paid to the heirs or assigns of the deceased.

THE FUNDS.

The By-Laws of the Association require that a portion of the money received as subscription fees shall be a sinking fund to meet assessments falling due by the delinquencies of subscribers. The balance of the money received to be used for the expenses incurred by the Association.

MEMBERS.

A subscriber failing to pay his or her assessment of one dollar within Thirty Days from receipt of notice forfeits his or her Certificate, and all claims upon the Association, unless good cause is shown for further delay. A subscriber can forward money in advance, which amount will be credited on future assessments. The subscribers are divided into classes including males and females. Each class is limited to 5000 subscribers. As classes are filled, new ones will be formed. No person is so poor that he cannot pay Ten Dollars at joining and One Dollar occasionally, thus securing $5000 to his or her heirs or assigns.

ADVANTAGES.

The advantages of this Association are, that no money panic can effect it. Its benefits are easily attainable by all, and every subscriber added to the Association enhances the interest and protection of all; the amount paid being so small, and only at long intervals, that any person can secure for his family a competency upon his death.

CLASSES.

In class A, all persons between the ages of 15 and 40 year. In class B, all persons between the ages of 40 and 60 years. Any one that has not stated his or her age correctly, will forfeit all money paid and his or her certificate.

One class cannot be assessed if one of another class dies. Classes have no connection with each other.

HOW TO BECOME A MEMBER.

A person desirous of becoming a subscriber must fill out an application and forward with it Ten Dollars by check, draft, or by Express, in gold or silver coin. Persons can pay agents, when regularly appointed and authorized to receive money. Each subscriber should interest himself in obtaining new members; by so doing all are benefitted.

G. J. OVERSHINER,

CARRIAGE AND WAGON

MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages, Buggies, Sulkies,

CONCORD-STYLE THOROUGHBRACE

—AND—

LUMBER WAGONS,

—FROM THE—

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!

Plows, Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Edman, Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required.

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
